Journal of CELL SCIENCE

Formerly the Quarterly Journal of Microscopical Science

VOLUME 7, 1970

Editors:

A. V. GRIMSTONE HENRY HARRIS

Editorial Board:

K. BURTON
H. G. CALLAN
J. B. FINEAN
J. G. GALL
E. G. GRAY
J. B. GURDON
J. HESLOP-HARRISON
S. J. HOLT
H. E. HUXLEY
L. F. LAMERTON
N. A. MITCHISON
D. H. NORTHCOTE
B. M. SHAFFER
J. H. SUBAK-SHARPE

Published for the Company of Biologists Limited

CAMBRIDGE UNIVERSITY PRESS

© Company of Biologists Limited, 1970.

Printed in Great Britain at the University Printing House, Cambridge

CONTENTS

NUMBER 1 JULY 1970

page 1 Cook, P. R.
Species specificity of an enzyme determined by an erythrocyte nucleus in an interspecific hybrid cell

5 Century, T. J., Fenichel, I. R. and Horowitz, S. B.
The concentrations of water, sodium and potassium in the nucleus and cytoplasm of amphibian oocytes

15 Small, J. V. and Davies, H. G.
The haemoglobin in the condensed chromatin of mature amphibian erythrocytes: a further study

35 Everid, A. C., Small, J. V. and Davies, H. G.
Electron-microscope observations on the structure of condensed chromatin: evidence for orderly arrays of unit threads on the surface of chicken erythrocyte nuclei

49 Journey, L. J. and Whaley, Audrey
Kinetochore ultrastructure in vincristine-treated mammalian cells

55 Moens, P. B.
The fine structure of meiotic chromosome pairing in natural and artificial *Lilium* polyploids

65 Friedländer, M. and Wahrman, J.
The spindle as a basal body distributor: a study in the meiosis of the male silkworm moth, *Bombyx mori*

91 Price, J. L. and Powell, T. P. S.
The morphology of the granule cells of the olfactory bulb

125 Price, J. L. and Powell, T. P. S.
The synaptology of the granule cells of the olfactory bulb

157 Price, J. L. and Powell, T. P. S.
An electron-microscopic study of the termination of the afferent fibres to the olfactory bulb from the cerebral hemisphere

189 Gray, E. G.
The question of relationship between Golgi vesicles and synaptic vesicles in *Octopus* neurons

203 Gray, E. G.
A note on synaptic structure of the retina of *Octopus vulgaris*

217 Lane, Nancy J. and Treherne, J. E.
Lanthanum staining of neurotubules in axons from cockroach ganglia

page 233 MILL, P. J. and KNAPP, M. F.
The fine structure of obliquely striated body wall muscles in the earthworm, *Lumbricus terrestris* Linn.

263 MILL, P. J. and KNAPP, M. F.
Neuromuscular junctions in the body wall muscles of the earthworm, *Lumbricus terrestris* Linn.

273 KEMP, D. J. and ROGERS, G. E.
Immunological and immunofluorescent studies on keratin of the hair follicle

285 HOHL, H. R., MIURA-SANTO, L. Y. and COTTER, D. A.
Ultrastructural changes during formation and germination of microcysts in *Polysphondylium pallidum*, a cellular slime mould

307 GUNNING, B. E. S.
Lateral fusion of membranes in bacteroid-containing cells of leguminous root nodules

NUMBER 2 SEPTEMBER 1970

319 FRYE, L. D. and EDIDIN, M.
The rapid intermixing of cell surface antigens after formation of mouse-human heterokaryons

337 ONODERA, K. and SHEININ, ROSE
Macromolecular glucosamine-containing component of the surface of cultivated mouse cells

357 KNUTTON, S., FINEAN, J. B., COLEMAN, R. and LIMBRICK, A. R.
Low-angle X-ray diffraction and electron-microscope studies of isolated erythrocyte membranes

373 LIMBRICK, A. R. and FINEAN, J. B.
X-ray diffraction and electron-microscope studies of the brush border membrane of guinea pig intestinal epithelial cells

387 GRANT, R. A., COX, R. W. and KENT, C. M.
The effects of irradiation with high energy electrons on the structure and reactivity of native and cross-linked collagen fibres

407 MANTON, IRENE, KOWALLIK, K. and STOSCH, H. A. VON
Observations on the fine structure and development of the spindle at mitosis and meiosis in a marine centric diatom (*Lithodesmium undulatum*). IV. The second meiotic division and conclusion

445 HEATH, I. B., GREENWOOD, A. D. and GRIFFITHS, H. B.
The origin of Flimmer in *Saprolegnia*, *Synura* and *Cryptomonas*

463 DINGLE, A. D.
Control of flagellum number in *Naegleria*. Temperature shock induction of multiflagellate cells

age 483 Allison, A. C., Hulands, G. H., Nunn, J. F., Kitching, J. A. and Macdonald, A. C.
The effect of inhalational anaesthetics on the microtubular system in *Actinosphaerium nucleofilum*

501 Smith, Una, Smith, D. S. and Yunis, Adel A.
Chloramphenicol-related changes in mitochondrial ultrastructure

523 Bostock, C. J.
The effect of 2-phenyl ethanol on the DNA synthesis cycle of *Schizosaccharomyces pombe*

531 Ord, M. J.
Mutations induced in *Amoeba proteus* by the carcinogen *N*-methyl-*N*-nitrosourethane

549 Brewer, J. E. and Bell, L. G. E.
Specificity of pseudopodium induction by the action of cations on *Amoeba proteus*

557 Dunn, M. J., Owen, E. and Kemp, R. B.
Studies on the mechanism underlying the inhibition by puromycin of cell aggregation *in vitro*

575 Griffiths, J. B.
The effect of insulin on the growth and metabolism of the human diploid cell, *WI-38*

NUMBER 3 NOVEMBER 1970

587 Henningsen, K. W.
Macromolecular physiology of plastids. VI. Changes in membrane structure associated with shifts in the absorption maxima of the chlorophyllous pigments

623 Bertagnolli, B. L. and Nadakavukaren, M. J.
An ultrastructural study of pyrenoids from *Chlorella pyrenoidosa*

631 Price, J. L. and Powell, T. P. S.
The mitral and short axon cells of the olfactory bulb

653 Laskey, R. A.
The use of antibiotics in the preparation of amphibian cell cultures from highly contaminated material

661 Birch, J. R. and Pirt, S. J.
Improvements in a chemically defined medium for the growth of mouse cells (strain *LS*) in suspension

671 Levene, C. I. and Bates, C. J.
Growth and macromolecular synthesis in the *3T6* mouse fibroblast. I. General description and the role of ascorbic acid

683 BATES, C. J. and LEVENE, C. I.
Growth and macromolecular synthesis in the *3T6* mouse fibroblast. II. The role of serum

695 O'NEILL, C. H. and FOLLETT, E. A. C.
An inverse relation between cell density and the number of microvilli in cultures of *BHK21* hamster fibroblasts

711 NEGRONI, G. and TILLY, RITA
Electron-microscopic observations of polyoma virus-transformed mouse cells treated with specific immune serum

719 DIMMOCK, ELIZABETH
The surface structure of cultured rabbit kidney cells as revealed by electron microscopy

739 SANDERS, E. J. and BELL, L. G. E.
Some physiological and morphological effects of polylysine on *Amoeba proteus*

755 BARKER, D. C. and THORNE, Kareen J. I.
Spheroplasts of *Lactobacillus casei* and the cellular distribution of bactoprenol

787 STAEHELIN, L. A. and KIERMAYER, O.
Membrane differentiation in the Golgi complex of *Micrasterias denticulata* Bréb. visualized by freeze-etching

793 TUCKER, J. B.
Initiation and differentiation of microtubule patterns in the ciliate *Nassula*

823 HOPKINS, J. M.
Subsidiary components of the flagella of *Chlamydomonas reinhardii*
